

Important Update Regarding CMDT Product Pricing & Market Outlook

Dear Valued Partners,

Thank you for your continued business and the partnership we share. At CMDT, we strive to provide the highest quality products and the best overall value in the fiberglass industry.

The Current Market Environment In today's dynamic market, global conditions heavily influence the pricing of raw materials. As most of our products are petroleum-based, we have seen significant increases in several key material components—ranging from **6% to 20%**.

We work closely with our suppliers to ensure any adjustments are appropriate relative to market conditions. In many cases, we have successfully postponed or avoided increases during this difficult period; however, a price adjustment has now become necessary.

Looking Ahead We have been informed by our manufacturers that additional pricing adjustments are expected across the supply chain through the month of May. The situation in the Middle East remains fluid; as long as the Strait of Hormuz remains effectively closed to commercial shipping, upward pressure on oil, petrochemical feedstocks, and resin pricing will continue. We will keep you informed of any further increases or potential supply shortages as they develop.

Price Adjustment Notice Effective June 1, 2026, CMDT will implement a price increase of 4–6% across our product line. Please note that CMDT has held pricing steady without an increase since **January 2023**. We remain committed to operating as efficiently as possible while maintaining the rigorous quality standards you expect from us.

If you have questions regarding this announcement, please contact our office directly at **817-551-9004**. We greatly appreciate your continued business and your understanding of these global market shifts.

Sincerely,
Christopher T. Ducic C.E.O., CMDT LLC
